Student Feedback (Student Satisfaction Survey)

Academic Year 2019-20

Student Satisfaction Survey (SSS) is one of the mandatory criteria set by National Assessment and Accreditation Council (NAAC). It is also a pre-qualifier for Assessment and Accreditation of the institution. From 2017 onwards the NAAC has endeavoured to conduct a Student Experience Survey, the results of which will go into the accreditation process. We have included 10 competency based questions, responses to which are given anonymously by students of the institution. This survey corresponds to an institute level feedback on infrastructure and learning experience. Feedback system is adopted in the institute for quality improvement in academics and curriculum development. This also helps in bridging the gap between the industry and the academia. The Institute invites its stakeholders to provide critical inputs for improving the quality of the curriculum through their feedbacks during the interactions. Feedback collected in online mode from students in specified feedback format and analysed. Student's feedback is used to improve the quality of delivery of subjects as well as overall personality development of the students. Information such as Action taken report of the Institution on feedback reported as minutes by the Governing Body of the institute. We implemented SSS on-line through online website <https://esdcollege.org> from the year 2019. The observations/ outcome of SSS are as follows:

1. Students have expressed satisfaction over the quantum of syllabus covered in their classes and laboratories.
2. Students appreciated teaching and implementation of learning outcome based curriculum which includes continuous evaluation and assessment of students throughout the semester.
3. Teacher's preparation, communication, use of appropriate teaching pedagogy and fairness of internal evaluation has been rated high in the survey. The SSS has also pointed out few grey areas where the college/ teachers/ departments do have scope for enhancement in quality of education. They are as follows:
 - Design interdisciplinary courses.
 - Institute needs to promote internship especially for some subjects in faculty of Arts, student exchange and field visit opportunities.
 - Teachers should encourage research culture amongst students.
 - More emphasis on skill development and hands on assignments, inclusion of seminars, workshops and field visits for typically one subject.
 - Enhance use of ICT in teaching and equipment's laboratories with multiple copies of small instruments.
